

Over 50 Years of Taiwanese Technological

台灣的技术

‘Long Life Electric’

TAISHIBA台芝品牌自1968年至今已深耕台灣超過50年的歲月秉持著「品質第一 / 用電安全的企業精神」，經由研發/開模/生產製造/銷售以一條龍的服務整合方案，奠定在台灣地區低壓設備電無熔絲開關等系列产品拓展市場基礎,逐步漸進發展自有品牌OBM.

Since 1968, TAISHIBA brand has been deeply cultivated in the Taiwanese electrical market over the past 50 years. Adhering the enterprise spirit of Quality First / Electricity Safety, it is established locally through the integration of R&D/molding/manufacturing/sales One-Stop service, in order to set the market foundation of Low-voltage equipment, electric non-fuse switches and such products locally. To gradually develop its own brand manufacturing (OBM).

品牌優化 創新/服務/整合

瞬息萬變的市場「創新設計/用電安全的理念」台芝憑藉多年的技術與製造經驗，在2016年台芝將品牌注入新元素將產品與服務垂直整合,專注研發與創新中/低壓設備電產品, 產品系列包括：無熔絲開關/電磁開關/ATS/MTS/電容器/家用(智慧)分電表/ 牆壁開關 & 插座/浴室多功能暖風機/浴室通風扇及節能循環扇; 台芝以「一站式」商業模式及產品「客製化」服務;優化產品/創造品牌價值;並於2020年獲得台灣精品獎項殊榮。

To survive in this industry of rapid market changes and high competitiveness, TAISHIBA has accumulated reputation and brand value in the market due to years of experiences, market stability and solid quality. By using vertical integration of the business structure enters the market in order to integrate TAISHIBA's new thinking, optimization and innovation. TAISHIBA has focused on research and development on medium / low voltage products series which also include: household power distributor (MCCB /Contactor /ATS /MTS /Capacitor / wall switch & socket / restroom multi-function heater / restroom ventilation fan and energy-saving circulating fan); By integrating the business model of Total Solution and One-Stop Shop to open up new thinking and vision towards the overall electric market, TAISHIBA also won the honor and affirmation of Taiwan Excellence Award in 2020.

走出台灣 深耕新南向

Next Page of TAISHIBA, Deep Ploughing into the new South-Vietnam / HCMC (Saigon)

東協國家經濟迅速崛起，看準新南向及海外未來市場發展的前瞻性，台芝TAISHIBA積極拓展海外銷售市場，並正式投資於越南(胡志明市)成立-台芝電氣(越南)為海外子公司; 提升在地化的服務及鄰國(包括：緬甸/ 柬埔寨)新興市場，逐漸將品牌TAISHIBA台芝拓展至海外全球化整體發展。

The ASEAN countries has rapidly rise of the new southbound and overseas future market; TAISHIBA has next long-term of business life which is expand to overseas market and meanwhile TISHIBA has formally invested in Vietnam (Ho Chi Minh City) to established-TAISHIBA Electric (Vietnam) Co., Ltd. as an overseas subsidiary Company, that is in order to localized services and emerging markets in neighboring countries (include: Myanmar and Cambodia); now on , TAISHIBA is gradually and steady build up the brand of reputation to globalization

能力優勢的介紹

“買得放心，用得安心”。

"TAISHIBA為了堅持不懈的追求品質"，在生產過程中，從設計/研發/開模/測試到正式生產的每件產品都遵循一站式嚴格的生產管理質量方針。在過去的幾年中，TASHIBA將其產品質量優化為“全自動機械臂測試”，以取代傳統的測試方法。

For TAISHIBA's purpose in perseverance of quality, during the production progress every product from design / R&D / mold opening / testing and formal quantity is adhered to a one stop rigorous production management quality policy. In the past few years, TASHIBA has optimized the quality of its products to “fully automated robotic arm testing”, in order for the substitution of traditional testing method. The purpose is to promote TAISHIBA's motto “Safe to buy, Safe to use.”

研發 R&D

跟隨市場發展向傾聽客戶需求

Follow the market development and listen to customer demands

把握顧客的需求創造與市場銷售端的商業默契

Between market and customer needs create a commercial tacit

實質性改進產品技術和服務

Substantial improvement of product technology and services

挖掘新市場潛在的需求，開發出新產品，引導新消費需求

Explore potential of new markets, develop new products, and lead of consumer demands.

生產 Production

提升生產力之技術標準化產品流程

To enhance processes of productivity standardization of product Technical

效率/品質-高效率地生產高品質產品

Efficiency/Quality-producing efficiently

交貨期-依照生產排成製程同時確保所生產的產品質量

Delivery on time- according to the production scheduling process while ensuring the quality of the products

安全-重視現場生產工作環境並保護作業人員安全

Safety- caring for work environment and protect safety of workers

自動化QC檢測Automated QC testing

高效率、高精度的嚴控品質性能與管理分析

Product efficiency and precision quality of strictly management and performance analysis

檢測效率提升確保品質穩定

Efficiency Improve product quality check-in and ensure quality stable

品質空管數據量化分析

Quality control by quantitative analysis
